TRADESMART EZ-LINK

Revolutionize your operation's shipping management with TradeSmart EZ-LINK.

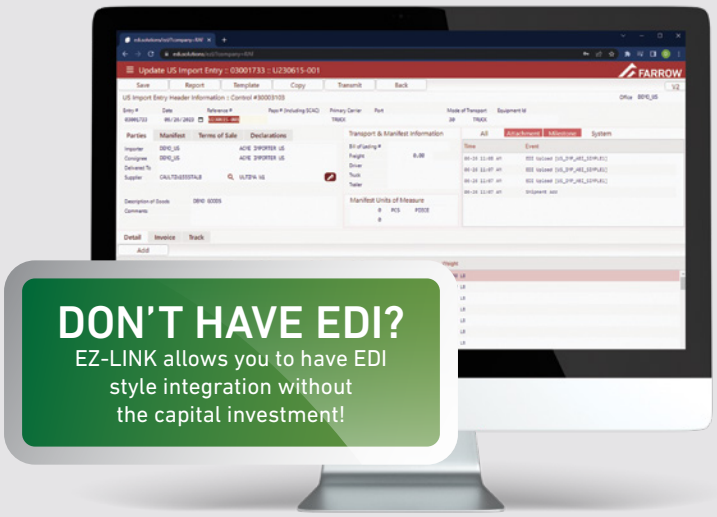
TRADESMART
EZ-LINK

Help simplify and expedite your clearance processes with TradeSmart EZ-LINK. This system provides a secure, direct electronic link between Farrow's U.S. Customs brokerage and the U.S. Customs Automated Commercial Environment (ACE). Direct integration of this system between border services and carriers means fewer mistakes and delays. From database management to shipment submission, and every step in between, Farrow has you covered.

With a customs clearance system this robust, customs compliance and clearances are managed for you so more time can be focused on your business. TradeSmart EZ-LINK is fully web based so you have access anywhere, on any device. Easy to use, fewer delays, expedited clearances.

EXPERIENCE THE POWER OF TRADESMART EZ-LINK

- This user-friendly online interface creates a compliant commercial invoice electronically filed with U.S. Customs to enhance document creation, reduce errors, and expedite border crossings
- Information is sent directly to U.S. Customs and, where applicable, to U.S. FDA, and other Partner Government Agencies (PGAs)
- EDI abilities with one standard output to U.S. Customs automated system allows importer to automatically send email to any designated parties, including invoicing features
- Customized dashboard presents current activity and real-time status updates (electronic clearance reporting from U.S. Customs or FDA automated systems ensures timely status updates)
- 24/7 Farrow support team for acknowledgement and confirmation of customs receipt, and completeness of entry



DON'T HAVE EDI?
EZ-LINK allows you to have EDI style integration without the capital investment!

EASE OF IMPLEMENTATION

- Very quick implementation process with little involvement or time to set up
