

# Over 750,000 square feet of warehousing and distribution capability

Farrow's strategically placed warehouse locations facilitate international logistics management, providing swift and easy access to key border crossings, international airports and trade centers.

Now, and in response to growing client demand, Farrow has opened more than 200,000 square feet of warehousing capacity in the Toronto and Vancouver markets. These top tier facilities, supported by the Farrow Management System (FMS), service Farrow's B2B and B2C fulfillment channel, shipping both domestically and internationally.

Farrow began providing US based organizations with solutions to cost effectively service the Canadian market in 1995. Recent changes in international trading rules and regulations are driving North American importers to reconsider their distribution networks.

In addition, Farrow has operated an FTZ facility in Michigan since 2008, and is adding FTZ solutions in Windsor (Ontario), Toronto (Ontario) and Vancouver (British Columbia) operations. Farrow's knowledge of international rules and regulations allow it to offer industry best and differentiated distribution solutions. At the same time, it has made significant investments in people, technology and facilities, to add to the value which our clients will realize by leveraging our trade consulting, customs brokerage, international forwarding, warehousing, and outbound transportation services in North America.

**FARROW LOGISTICS OPERATES OVER THREE QUARTERS OF A MILLION SQUARE FEET OF WAREHOUSING CAPACITY IN 10 LOCATIONS ACROSS NORTH AMERICA, SEVEN IN CANADA, AND THREE IN THE U.S. SERVICES INCLUDE:**
