

Introducing

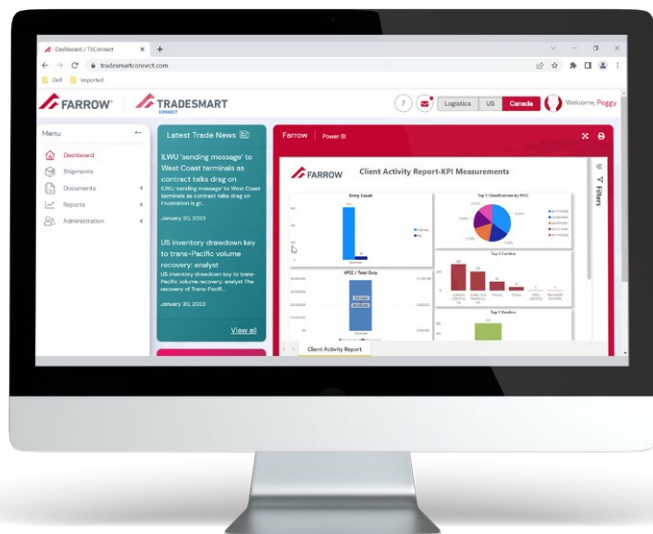

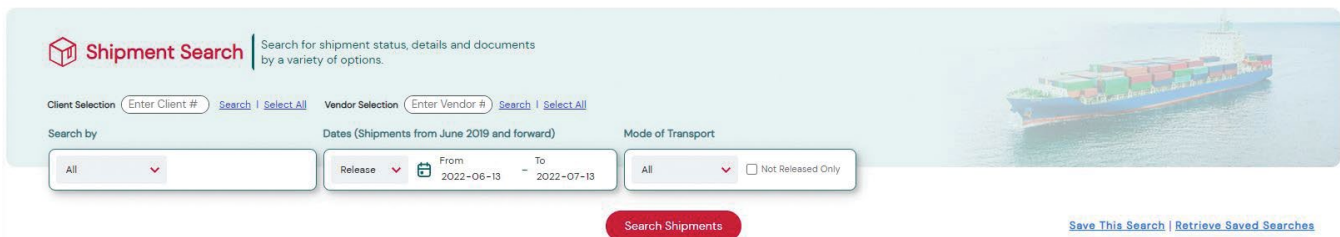

What's new from TradeSmart Connect!

- Single sign-on into one portal
- Ability to toggle between Canadian and U.S. imports from any menu, allowing clients using Farrow north and southbound to access equivalent data, documents and reports
- Landing page, dashboards and reports are tailored to your reporting preferences and needs
- View import activity (track & trace) and document images
- Available for all modes of transportation (Air, Ocean, Rail and Truck)

After consultation with valued clients and Farrow Client Partnering personnel who manage trade activity on behalf of clients, Farrow IT professionals have upgraded Farrow's trade management and reporting software to provide better service.

TradeSmart Connect is a secure information portal that provides unparalleled visibility to your U.S. and/or Canadian import data with the ability to track shipments in real-time, run reports on-demand, and access electronic copies of all your shipment related documents.

Dashboard

- Ability to place specific reports on a dashboard
- Farrow will assist with setting up preferences
- Export data to various file formats, including Excel/CSV and PowerPoint

Shipments

- Easily toggle between U.S. & Canadian clearances
- Search for shipment status, details and documents by a variety of options, including “shipment type” search by transportation mode
- Review the complete timeline: release to final entry confirmation (release time available on the shipment search return screen)
- Select images to view—including all post entry images

Documents

- Ability to select a “single PDF” per transaction, or to place transactions chosen into a single PDF using the document cart
- Template upload feature (spreadsheet)

Reports

- Create reports based on what data is important to you
- A multitude of standard reports available with option to add additional data (in order to customize standard reports to your specifications)
- The scheduled reporting feature generates and sends reports to you when you want them
- Document images can be included in reports created
