

GET PARS OR PAPS INFORMATION ON THE GO WITH THE FARROW TRACKER MOBILE APP

Get real-time PARS and PAPS updates right from your phone, and track your cross-border shipments instantly. By downloading this one app, carriers can see their northbound or southbound shipments, and register to receive alerts as notices are sent. This app also provides the ability to monitor release for hot shipments remotely, in order to keep up-to-date.

FARROW SHIPMENT TRACKING

Carriers carrying loads cleared by Farrow can check their shipment status from the comfort of their cabs through a user-friendly mobile app. Both PARS (Canadian imports) or PAPS (U.S. imports) shipment notifications allow users to track shipments in both directions across the Canada-U.S. border.

This app was collaboratively designed and developed by business partners and Farrow's IT professionals to ensure user needs were met.

KEY FEATURES

Barcode Scanning

- Scan your shipment documents with your phone camera, and the tracking details will be auto filled

Request Specific Updates

- Choose when you want to be notified, based on the multiple stages of a transaction (e.g. when PARS "accepted" or PARS "released")

Select Preferred Communication

- Choose to receive notifications either by voicemail or email

The Farrow Tracker App incorporates the following features:

1. PARS Tracking
2. PAPS Tracking
3. Shipment Notifications
4. Bar Code Scanning
5. User Settings

Don't want to download an app?

Check the status of your shipment from any device using Farrow's website! All that is needed is a device or computer with an internet connection and a web browser, and real-time shipment statuses are available to you.

This platform is an extension of the PARS/ACROSS and PAPS tracking applications accessible from any web-enabled device.
