INDUSTRY-LEADING TECHNOLOGY, SMARTER TRADE MANAGEMENT

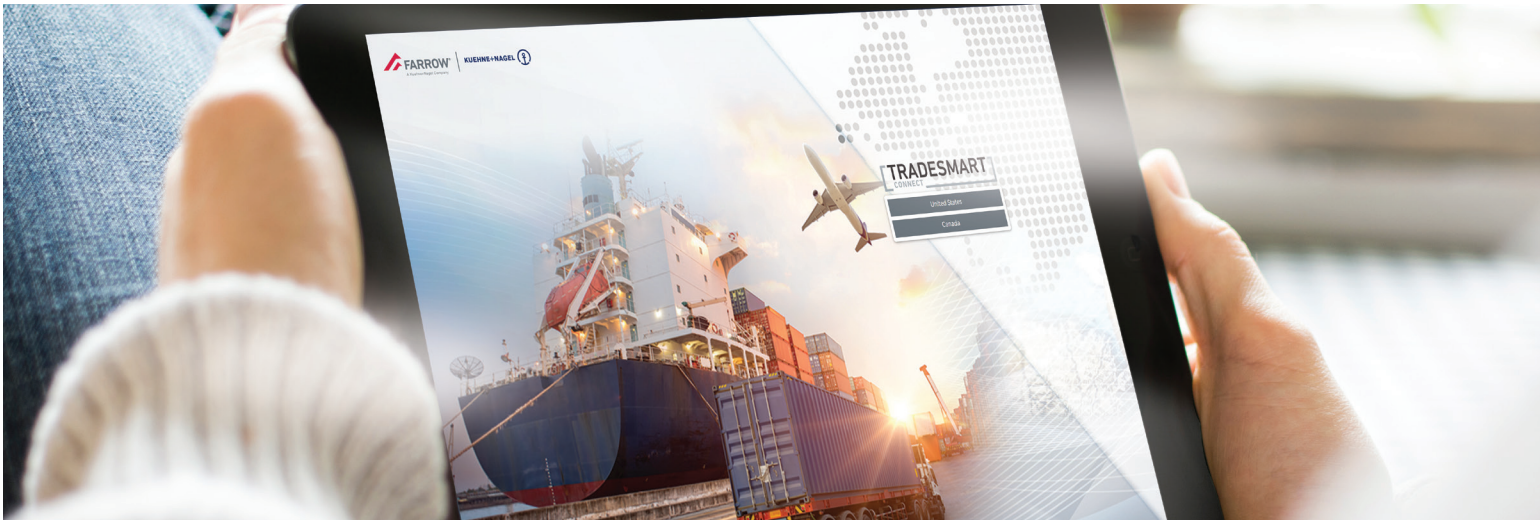

TradeSmart Connect is Farrow's secure information portal which provides unparalleled visibility to your U.S. and/or Canada import data with real-time shipment tracking capabilities across a comprehensive range of transportation modes (Air, Sea, Rail, and Road), the ability to run reports on-demand, and enables storage and access to electronic copies of all your shipment related documents.

DESIGNED BY USERS, FOR USERS

Recognizing a client need for both visibility and empowerment in the area of trade activity management, Farrow engaged clients from a wide range of industries to participate in a client advisory board to better understand the need, and identify how it could best be addressed.

This collaborative forum shared feedback, challenges, and improvement suggestions, enables Farrow to incorporate direct-client input and cross-industry insights into its product development. The result? An industry leading solution, TradeSmart Connect, that exceeds common client needs while remaining adaptable to industry-specific requirements such as ongoing regulatory changes.

DISCOVER TRADESMART CONNECT

Features

- Single sign-on into one portal
- View import activity (track & trace) and document images
- Ability to toggle between Canada and U.S. imports from any menu, allowing clients using Farrow north and southbound to access equivalent data, documents, and reports
- Available for all modes of transportation (Air, Ocean, Rail and Road)
- Landing pages, dashboards, and reports are tailored to each user's reporting preferences and needs (Farrow will assist in setting up those preferences)
- Ability to place specific reports on user's homepage dashboard

Shipments

- Easily toggle between American and Canadian clearances
- Search for shipment status, details, and documents by a variety of options, including a "shipment type" search by transportation mode
- Review the complete timeline: from release to final entry confirmation
- Select images to view—including all post entry images

Reports

- Create reports based on what data is needed
- A multitude of standard reports available with option to add additional data (in order to customize standard reports to user's specifications)
- Document images can be included in reports created
- The scheduled reporting feature generates and sends them when users want them

Documents

- Ability to select a "single PDF" per transaction, or to place multiple transactions chosen into a single PDF using the document cart
- Export data to various file formats, including Excel/CSV and PowerPoint
- Template upload feature
